PROFESSIONAL EXPERIENCE

React Developer

Corpine

10/2024 - Present United Kindom

- Engineered high-performance UIs with React.js and TypeScript, enhancing user interaction across web platforms
- Minimized frontend bugs by 25% by implementing ESLint, strict type checking, and modular code structures
- Led seamless RESTful API integrations using Axios, boosting data reliability and reducing latency in core features
- Instituted a standardized UI framework with Material-UI, increasing visual consistency and reducing development time by 20%

Software Developer

Easycomp technologies

03/2024 - 09/2024 Nigeria

- Refined and maintained TypeScript-based codebases, resulting in 30% fewer runtime issues
- Built scalable data dashboards using D3.js, enabling real-time business analytics for enterprise clients
- Executed cross-browser compatibility and Lighthouse audits, improving performance metrics by 22%

React Developer

Green Mouse Technologies

09/2023 - 03/2024 Nigeria

- Architected complex dashboard systems using React, Redux Toolkit, and Axios, improving client reporting workflows
- Enhanced application security by implementing role-based access control (RBAC)
- Accelerated project turnaround time by 20% through streamlined API communication and reusable service layers

Software Developer

Easycomp technologies

02/2022 - 08/2023 Nigeria

- Spearheaded frontend initiatives, translating Figma designs into accessible, responsive web interfaces
- Reduced legacy code dependencies by 40% through effective refactoring and component modularization
- Produced dynamic data visualizations with D3.js for fintech clients, improving report accuracy and decision-making

Frontend Developer (Intern)

Zojatech - Nigeria

10/2021 - 12/2021 Location

- Developed responsive frontend features for a banking app prototype using HTML, CSS, and JavaScript
- Assisted in debugging, cross-device testing, and feature optimization during Agile sprints
- Collaborated in daily stand-ups and contributed to code reviews, strengthening foundational coding practices

SUMMARY

Impact-driven Frontend Developer with 3+ years of experience building scalable, high-performance React applications. Reduced load times by 30% and delivered 50+ reusable components that accelerated development cycles. Expert in TypeScript, Tailwind CSS, and API integration-focused on shipping responsive, accessible, user-first experiences.

KEY ACHIEVEMENTS

Improved Code Quality

Reduced frontend bugs by 25% using ESLint and strict type checks.

Component Architecture & Reusability

Developed and maintained a component library of over 50 reusable React components, improving development speed and consistency.

Optimized Data Handling

Boosted data reliability and cut latency through seamless RESTful API integrations.

Responsive Design & User Experience

Delivered 20+ mobile-responsive, pixel-perfect web applications, improving user retention and engagement across platforms.
