PROFESSIONAL SUMMARY

A passionate and highly skilled front-end developer with over 3 years of experience specializing in React.js, TypeScript, and JavaScript. I have successfully built dynamic, data-driven applications and integrated cutting-edge technologies to enhance user experiences. My focus on scalability, performance, and maintainability ensures that I deliver high-quality and efficient software. Adept at collaborating with cross-functional teams and integrating front-end solutions with back-end systems.

PROFESSIONAL EXPERIENCE

Corpine | United Kingdom

React Developer(Remote) , October 2024 – Present

Client Description: Corpine is a technology company collaborating with clients ranging from startups to established enterprises to design and deliver innovative, high-performance software solutions. The company prioritizes understanding client goals and user needs to create scalable and user-friendly products that drive business growth. Corpine excels in leveraging modern technologies to develop interactive dashboards, advanced data visualizations, and responsive web applications tailored to meet diverse business demands.

- Developed high-performance React applications, utilizing reusable components and hooks to create scalable and maintainable software solutions.
- Designed and implemented scalable architectures using React and Redux, ensuring efficient state management and data flow.
- Streamlined front-end development processes by implementing best practices, reducing runtime errors, and improving code reliability.
- Collaborated effectively with backend teams to consume APIs, ensuring smooth data integration and delivering responsive user interfaces.
- Worked with cross-functional teams to leverage frameworks like Material-UI and TailwindCSS, creating responsive and visually consistent designs.

EASYCOMP TECHNOLOGIES | Nigeria

Software Developer(Contract), March 2024 –September 2024

Client Description: EASYCOMP TECHNOLOGIES LIMITED is dedicated to revolutionizing the IT landscape by delivering high-quality, cost-effective solutions tailored to client needs. By leveraging cutting-edge technologies, the company crafts transformative experiences that turn technology into a vital asset. Their commitment to innovation and excellence ensures that each solution not only meets but exceeds client expectations, paving the way for a future without bounds.

- Developed and optimized TypeScript and React code for large-scale applications, integrating third-party libraries and ensuring compatibility across multiple platforms while maintaining code readability and performance.

- Created dynamic, interactive visualizations using D3.js to represent complex data sets, delivering clear insights and improving data-driven decision-making processes.
- Designed and implemented responsive user interfaces using React.js, TypeScript, and JavaScript, ensuring smooth integration with backend services and delivering an optimized user experience
- Collaborated seamlessly with backend teams to consume APIs efficiently, ensuring smooth data integration and delivering responsive user interfaces.

GREEN MOUSE TECHNOLOGIES | Nigeria

React Developer, September 2023 – March 2024

Client Description: Green Mouse Technologies is a premier web design company based in Lagos, Nigeria, renowned for delivering quality, results-driven web design and mobile app development solutions. With a strong emphasis on customer satisfaction, the company is recognized as a leader in the industry by clients who value its team of professionally trained, motivated, and dedicated web designers and developers. Focused on excellence, Green Mouse Technologies consistently crafts innovative solutions tailored to meet the unique needs of its clients.

- Successfully completed a 4-month contract, showcasing expertise in building dynamic and responsive React websites and comprehensive dashboards.
- Spearheaded the entire development lifecycle, from project initiation to deployment, ensuring seamless integration of modern design principles and intuitive user interfaces.
- Conducted meticulous API integration using Axios, enhancing the functionality and real-time data flow, resulting in streamlined and interactive user experience.
- Collaborated closely with clients and stakeholders to understand project requirements and deliver solutions that exceeded expectations.
- Implemented robust testing methodologies, significantly reducing bugs and improving overall application reliability.
- Demonstrated versatility by adapting to new technologies and tools, contributing to the team's continuous learning culture.
- Received positive feedback from clients for delivering high-quality solutions within stipulated timelines, contributing to client satisfaction and project success.

EASYCOMP TECHNOLOGIES | Nigeria

Software Developer, February 2022 –August 2023

Client Description: EASYCOMP TECHNOLOGIES LIMITED is dedicated to revolutionizing the IT landscape by delivering high-quality, cost-effective solutions tailored to client needs. By leveraging cutting-edge technologies, the company crafts transformative experiences that turn technology into a vital asset. Their commitment to innovation and excellence ensures that each solution not only meets but exceeds client expectations, paving the way for a future without bounds.

- Developed and optimized complex applications using React, ensuring robust scalability and improved maintainability across multiple projects.

- Enhanced frontend performance by implementing React best practices, leading to faster load times and smoother user interactions.
- Built dynamic, responsive user interfaces with React, creating reusable components that streamlined development processes and reduced technical debt.
- Developed interactive data visualizations using D3.js, providing immersive experiences for users by integrating advanced graphics into web applications.

ZOJATECH | Nigeria

Frontend Developer, October 2021 – December 2021

Client Description: Zojatech is a technology company that delivers innovative fintech and SaaS solutions, including Zojapay (payment platform), Revvex (budget management), and Mance (performance management). Offering flexible subscription models, we ensure accessible, cutting-edge software. Backed by industry expertise, we prioritize exceptional customer support and stay ahead of trends to help clients achieve their goals and maintain a competitive edge.

- Gained hands-on experience in frontend web development, strengthening skills in HTML, CSS, and JavaScript.
- Developed and deployed several demo projects, including the frontend for a banking application, ensuring responsive design and seamless user experience.
- Collaborated with senior developers to implement best coding practices and optimize application performance.
- Utilized React.js to create dynamic user interfaces, improving usability and interactivity of demo applications.
- Participated in code reviews, debugging, and testing, enhancing the quality and reliability of the projects.

TECHNICAL SKILLS

Languages & Frameworks:

- React.js | TypeScript | JavaScript | Python
- HTML | CSS | SCSS | D3.js | Express.js

Tools & Technologies:

- Git | Version Control | API Integration (RESTful APIs)
- Redux | Axios | Vercel | Netlify | Postman

Soft Skills:

- Analytical thinking and problem-solving
- Strong interpersonal and communication skills
- Agile and Scrum development practices
